Hi, Nancy.

Do you have a few minutes to chat today. I have meetings now, at 10:00 and 1:00 MST, but am free the rest of the day. Just want to touch base with you on my meetings in Durango and Silverton last week.

Thanks!

Cynthia, Nancy, Christie, and Paula:

I also spoke with Warren and he said he would be surprised if Bruce Finley from the Denver Post didn't show up at Idaho Springs on Friday. He didn't expect him to show at the sites further from Denver but felt he was more likely than not to show at Idaho Springs.

He also shared the following on CDPHE's approach to managing media:

- [REDACTED] No proactive outreach planned at this time but if we collectively thought it was in our best interest to make some type of announcement, he suggested CDPHE send something out on Monday. With the locals responsible for public meeting notification, he expects additional interest by the media regardless of whether or not either of our agencies release anything.
- [REDACTED] Their position is that the roadshow is a local lead, not CDPHE lead or EPA lead. CDPHE is helping to organize the logistics at the request of the locals
- [REDACTED] In response to Dan Elliott and Jonathan Romero's request for details, he told them both that details were still being finalized and that he would relay when available. He said he would expect both reporters to already be in touch with locals and expects reporters may already have draft itinerary.
- [REDACTED] Bruce has been known to show-up unannounced, and not identify himself once on-site, so we should make sure we know what he looks like and be prepared to respond to any inquiries he makes

Also, Cynthia and I are planning to meet with the RPMs on Monday to go over our discussion with you so they know what the plan is for addressing any media inquiries during the roadshow. I'm also printing the business cards we used at ICP so we can give them out to any media folks who may need them, e.g., anyone wanting info we haven't collectively agreed we should provide, as well as anyone with questions RE GKM, media tours, etc.

Finally, Warren said he'd be available to participate either in our 9Monday :30 MDT/11:30 EDT strategy call – or – if we wanted to talk internally first – after our call. If you want me to include him in the 9:30/11:30 please let me know and I'll send him an invite. If you want to speak with him after we have a chance to talk, I'll find a time that works.

Just talked to Warren at CDPHE. Although no one has formally confirmed, he fully expects that Dan and Jonathan will attend. He also expects that the Silverton Standard, someone from the Denver Post, and a TV outlet will show up. He thinks we should plan for 2-8 media attendees.

Subject: Superfund Tour information

Hi Dan:

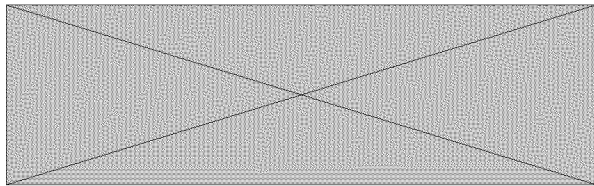

Here's what we know at this point about next week's tour. A word of caution: Some of these locations have very limited access and parking, particularly the stops for the Eagle Mine and Argo Tunnel Water Treatment Plant. Safety equipment also may be at a premium due to the large size of the group -- if you have your own hard hat and safety glasses, I recommend you bring them.
